**What Was The Crisis And When Did It Take Place?**-The family found themselves in a difficult life situation after losing their father. Without a stable income and rising prices for food and rent, the family experienced a real crisis — sometimes there was not enough money even for the most necessary things.

**Describe The Types Of Needs This Individual Has.**-Alina and her family have financial needs to provide food and basic expenses, and an emotional need for support and a sense of security.

**How Did This Donation Meet These Needs And Make A Lasting Impact?**Living conditions were also difficult: the old mattress the children slept on had completely lost its shape, which often prevented them from getting a good night's sleep. That's why the help we were able to provide — a new mattress and clean clothes — was not just support for them, but a glimmer of hope.

**Please Provide A Quote From The Individual About How They Feel After Receiving This Donation.**Alina sincerely thanked them for their care, saying that it was not only practical help, but also a feeling that they were not forgotten.

It has affected many families, especially children and adolescents, depriving them of security, stability and the opportunity to live a normal life. This has led to an internal crisis among adolescents: limited social contacts, lack of opportunities for development and a sense of anxiety and uncertainty about the future.

**Describe The Types Of Needs This Individual Has.-**Types of needs include physical needs—food, clothing, and safe housing; emotional support and a sense of security; social needs—communication and belonging to a community; and opportunities for development and learning.

In addition, two children started school, and the family had to buy school supplies and clothes for them, which became a big financial burden at this difficult time.

Despite the daily fear and anxiety, she tries to create a sense of calm and care for her children, so that they can at least experience a normal childhood.

Recently, we were able to help this family by providing them with new clothes: beautiful pajamas for Veronika, and warm clothes for the children and husband.

**How Did This Donation Meet These Needs And Make A Lasting Impact?** The clothes received helped Veronika and her family reduce their financial burden by providing them with the necessities for daily life, and also gave them a sense of care and support.

**Please Provide A Quote From The Individual About How They Feel After Receiving This Donation.** For her, it was more than just clothes. She said with a smile that now she could dress the children in clean and new clothes, and she would feel a little more at ease.
