Chawama compound is a densely populated shanty compound with places that has very poor people. We found a very old lady that is neglected by the extended family. Most of her relative who could take care of her passed only even her only children, living her with two grand children. She totally depends upon well wisher as she cannot work to look after herself and the two grand children.

Why Were The Items Distributed Here? What Are The Greatest Needs In This Community?

This is a very poor residential place of farm workers west of Lusaka. Residents work in nearby farms whenever they are needed. They are paid according to the days work. Which is more of hand to mouth. Her husband was out looking for some piece work in farms. For the last three days he could not get any work and so the family was hungry.

In Kuku compound we found a grandmother taking care of her grand child who was abandoned by her daughter for getting pregnant the third time from three different men. She was kicked out of home and found refuge in her grandma's place. She was too shy to be on camera. The problem is the grand mum is too old to work and look after her grand child and her three children.
